

## USR Alliance Promoter Participant Agreement

---

This USR Alliance Promoter Participant Agreement (“**Promoter Participant Agreement**”) is entered into by and among the undersigned party below (“**Promoter**”) and acknowledged by the Secretary on behalf of the USR Alliance, and is effective as of the Effective Date set forth below.

### Background and Purpose

- A. The Promoters want to encourage industry awareness and opportunity by creating a forum to define, discuss and specify all aspects of using Ultra Short Reach (“**USR**”) links that are used to connect dies within a package using an organic substrate known as Multi-Chip Modules (MCMs). To these ends the Promoters have developed certain methods and proprietary rights to various technologies in and to USR links (“**USR Technology**”).
- B. The Promoters will initially focus on use of high-rate, multi-wire USR links in I/O connectivity applications. They will also extend discussions to other USR-related topics across multiple disciplines, including enabling other relevant applications, defining complementary transport protocol and software API’s, defining application-specific electrical profiles, and addressing power management issues.
- C. The outputs for the USR Alliance are intended to be:
  - a. Implementation agreements for the electrical and logical interfaces;
  - b. Conformance test suites to enable interoperability;
  - c. Market awareness and education;
  - d. Use case analyses.
- D. The Promoters intend to create a forum for participation by creating various tiered membership levels to effectively encourage participation by various industry participants with transparent decision-making and a sense of fair play (referred to as the “**USR Alliance**”).
- E. It is the intention of the Promoters, as set forth in this Agreement and unless determined otherwise by the Promoters, to license their respective USR Technology on fair, reasonable and non-discriminatory terms amongst themselves and to industry adopters pursuant to proprietary bilateral licenses outside of the Alliance.
